Parties

1. The Plaintiff, PETER BRASLAVSKIY, ("Plaintiff") was at all times relevant hereto residing in the State of Illinois.
2. The Defendant, ELMHURST LINCOLN MERCURY, INC. ("Seller") is a business corporation engaged in the sale of motor vehicles and related services and accessories. Seller is authorized to and conducts business in the State of Illinois

Jurisdiction and Venue

3. Jurisdiction arises under the Odometer Requirement Act, 15 U.S.C. §1989 (b) which gives this court subject matter jurisdiction.

4. Venue is proper in this district because the act and transactions that give rise to this claim occurred in this district.

Facts

5. On or about September 14, 2007, Plaintiff purchased from Seller a 2001 Mercedes Benz S 430 ("Mercedes") for valuable consideration (See copy of purchase documents, attached hereto as Exhibit "A").
6. Prior to and at the time of Plaintiff's purchase, Seller, action through its duly authorized agents and salespersons, made numerous representations to Plaintiff regarding the Mercedes, including that the Mercedes had been driven eighty four thousand eight hundred and six (84,806) miles (See Odometer Disclosure Statement, attached hereto as Exhibit "B").
7. In making the aforementioned representation, Seller misrepresented, suppressed, omitted and/or concealed the following material facts from Plaintiff, with the intent Plaintiff rely on said misrepresentations, suppressions, omission and/or concealments that the Mercedes had not been driven eighty four thousand eight hundred and six (84,806) miles (See a copy of the Autocheck vehicle history report evidencing mileage discrepancy, attached hereto as Exhibit "C"; See copy of the Inspection Appraisal report evidencing that the vehicle was driven in excess of one hundred thousand (100,000) miles. See Certificate of Title of a Vehicle evidencing actual mileage to be one hundred twenty six thousand two hundred and sixty (126,260) miles on May 13, 2005 attached hereto as Exhibit "E")

8. Seller failed to inform Plaintiff that the eighty four thousand eight hundred and six (84,806) miles miles as represented by Defendant was not the actual mileage as required on the Odometer Disclosure Statement (See Exhibit "B").
9. Had Plaintiff known Seller's misrepresentations as state above were untrue, or had Plaintiff known the true condition of the Mercedes, Plaintiff would not have purchased the Mercedes.
10. Plaintiff exercised all due diligence and reasonably relied on Seller's representations.
11. Seller had either actual knowledge or reasonably should have known the falsity of its representations, or acted in reckless disregard for the truth or falsity of its representations.
12. Seller intended to induce Plaintiff's reliance on Seller's pre-sale representations.
13. Plaintiff suffered actual damages in reliance on Seller's misrepresentations, including:
 - a. purchase of an automobile which failed to conform to the basis of the bargain as the vehicle was worth less than as represented due to the misrepresentation of the vehicle's actual mileage;
 - b. loss of all monies expended towards the purchase of the Mercedes; and
 - c. severe aggravation and inconvenience.
14. Plaintiff's actions of purchase an automobile from Seller are akin to all consumers' actions and thus concern all consumers.
15. Seller's misrepresentations of and/or failure to disclose the true condition of the Mercedes involve consumer protection concerns, as Seller holds itself out to be a place of business where consumers can come to purchase automobiles and related services.

16. The requested relief is in the best interest of all consumers, as if the requested relief is granted, Seller will be discouraged from engaging in conduct similar to that alleged fraudulent in this Complaint.
17. Seller's actions were done maliciously and in willful, wanton and reckless disregard for the rights of Plaintiff, thereby warranting substantial punitive damages.

23. The requested relief is in the best interest of all consumers, as if the requested relief is granted, Defendant will be discouraged from engaging in conduct similar to that alleged fraudulent in this Complaint

24. Defendant's actions as stated above constitute violations of the Illinois Consumer Fraud and Deceptive Business Practices Act, 815 ILCS 505/2.

Reviewed History: The history begins at purchase with the certified odometer statement; showing that the vehicle has 84,806 miles on it. The Autocheck report shows that the vehicle is listed as DISQUALIFIED for an Autocheck assurance program due to possible odometer roll back per its history. The problem is listed as a possible odometer roll back due to the following history. At 10 miles on 7-30-2001 the vehicle was registered as sold. On 5-13-2005 the vehicle is listed as having 126,260 miles recorded. The history further shows that the vehicle was registered as having only 60,700 miles on 6-30-2005 and 67,068 miles on 11-10-2005. The vehicle was registered as sold again at 84,806 miles on 5-2-2007.

The Carfax report history shows that the vehicle was originally sold as a corporate lease vehicle indicating that the vehicle was possibly a rental vehicle creating a moral hazard to value. Carfax has fewer entries reported and does not show the 5-13-2005 entry showing 126,260 miles and therefore Carfax doe's not report the possible rollback.

Conclusion Opinion of reviewed history:

The vehicle odometer history is very suspicious and since the odometer unit is a

digital assembly there are no physical signs of tampering. These units are "adjusted" electronically by connecting a computer to the on board data link and realigning the odometer digits, without leaving any physical evidence of tampering. The fact that the history shows a trail of suspicious odometer recordings will follow the vehicle cradle to grave, creating a moral hazard to value.

The initial inspection began with visual inspections that revealed that the vehicle exhibits no evidence of vehicle owner caused abuse, misuse or neglect.

The engine was started and allowed to idle. The engine exhibits a loud intermittent internal lifter metallic clatter. The engine runs rough at idle. The brake and accelerator pedal pads and seat cover upholstery all show signs of wear typical and consistent with a vehicle having in excess of 100,000 miles on it.

Additionally this vehicle year, make and model, is listed as involved in 6 Safety Recall Campaigns per the National Highway Transportation Safety Agency. Safety Recall # 01V014000 defective heated windshield washer bottle 3,400 vehicles involved. # 02V338000 defective battery grounding, 65,000 vehicles involved. #04V227000 defective electrical circuit breakers, 54,454 vehicles involved. # 06V028000 defective interior lighting, 36,911 vehicles involved. #07V263000 defective ABC hydraulic system, 19,924 vehicles involved. #07V263000 defective ABC high pressure hose, 19,924 vehicles involved.

This data is supplied for information purposes only and may not apply to this specific vehicle. However, involvement of a vehicle in a Safety Recall Campaign is a direct indication of manufacturing defects present in the specific vehicle.

It is my opinion that this vehicle was defective and unmerchantable at the time of sale. This is evidenced by, and resulting in the accumulated history reviewed, as well as the ongoing unacceptable conditions observed during the inspection. It is my opinion that the average purchaser, having been fully informed, considering this make and model for purchase; would reject this vehicle as a candidate for purchase based on its history and the ongoing abnormal conditions observed.

All of the abnormal conditions complained of require extensive invasive diagnostic and service repair operations that are beyond the scope of this inspection.

It is my opinion that the value of this vehicle is diminished.

Having inspected this vehicle and reviewed its history, it is my opinion that the value of this vehicle was below *The Original Purchase Price at time of Retail Sale*, by 60 percent. MSRP \$70,800.00. Sale Price \$19,400.00. *Actual Value at time of Retail Sale/Purchase*, due to diminished value appraisal \$7,760.00. The Current good valuation category per Black Book USA \$ 22,133.00 averaged between high and low retail. Current Good valuation NADA \$22,650.00 averaged between high and low retail. Average current valuation between both guides, \$ 22,391.00. Diminished value of vehicle in its current condition, \$8,956.00.

This appraisal allows for a margin of error of 5 percent either way. Therefore, 55 Percent DV of \$19,400.00 equals \$8,730.00. 65 percent DV of \$19,400.00 equals \$6,790.00.

This make and model of vehicle is readily available in the automotive market place, without the serious defects present in this specific vehicle, and can be acquired without defects and meeting the Good condition criteria as defined by all published major valuation guides. This fact has the effect of drastically devaluing this vehicle.

Under penalties as provided by law pursuant to section 1-109 of the Code of Civil Procedure, the undersigned certifies that the statements set forth in this affidavit are true and correct, except as to matters therein stated to be on information and belief and as to such matters the undersigned certifies as aforesaid that he verily believes to be true.

Component: ELECTRICAL SYSTEM:FUSES AND CIRCUIT BREAKERS

Potential Number Of Units Affected : 54454

Summary:

ON CERTAIN PASSENGER VEHICLES, DURING THE PRODUCTION PROCESS OF THE BLOWER MOTOR FUSE HOLDER, THE SIZE OF THE ELECTRIC CONDUCTOR OF THE HOLDER MAY BE BELOW APPROPRIATE TOLERANCES.

Consequences:

CONSEQUENTLY, THE ELECTRIC CONDUCTOR OF THE BLOWER MOTOR FUSE HOLDER MAY DISSIPATE MORE HEAT THAN THE PLASTIC FUSE HOLDER WAS DESIGNED TO WITHSTAND, WHICH COULD RESULT IN OVERHEATING OF THE HOLDER AND DISABLING OF THE BLOWER MOTOR AND THE ABILITY TO DEFROST OR DEFOG THE WINDSHIELD IN COLD OR HOT AND HUMID WEATHER CONDITIONS. DEPENDING ON THE OCCURRENCE AND WEATHER SITUATION, DRIVER VISIBILITY COULD BE REDUCED, WHICH COULD RESULT IN A CRASH.

Remedy:

DEALERS WILL INSTALL NEW BLOWER MOTOR FUSE HOLDERS. THE RECALL BEGAN DURING OCTOBER 2004. OWNERS SHOULD CONTACT MERCEDES-BENZ AT 1-800-367-6372.
